

साक्षी

Saakshi

A resilient, provable computer-based testing ecosystem

Hackathon Challenge 6 · Impact & Benefits

Team Kawaai: Anirudh, Bhumika, Arjav

Who gains

An online exam that keeps working when things break, and can prove what happened.

CANDIDATES

Answer saved

even if power or link fails

- Answers are kept: 0 of 16,000 lost in chaos drills
- A cut network does not end the exam
- Only those truly hurt are re-tested
- Notices in Hindi, English and Tamil

NTA AND GOVERNMENT

Signed proof pack

for every decision

- Any edit to a record is found: 1,000 of 1,000 tests
- Clear choice: compensate, re-test or re-conduct
- Less doubt, fewer court cases
- Fewer full re-exams

EXAM CENTRES

Checked before start

and fast to recover

- Bad seats are caught before the exam
- Recovery takes about 1 to 2 seconds
- A centre with a cut link can still start, with a phoned code

SOCIETY

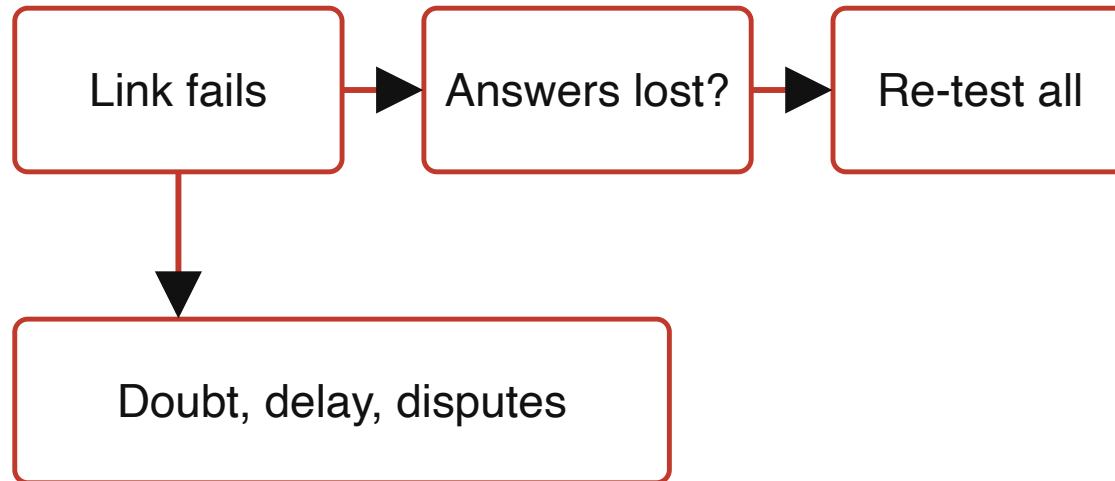

Trust in fair exams

for all languages

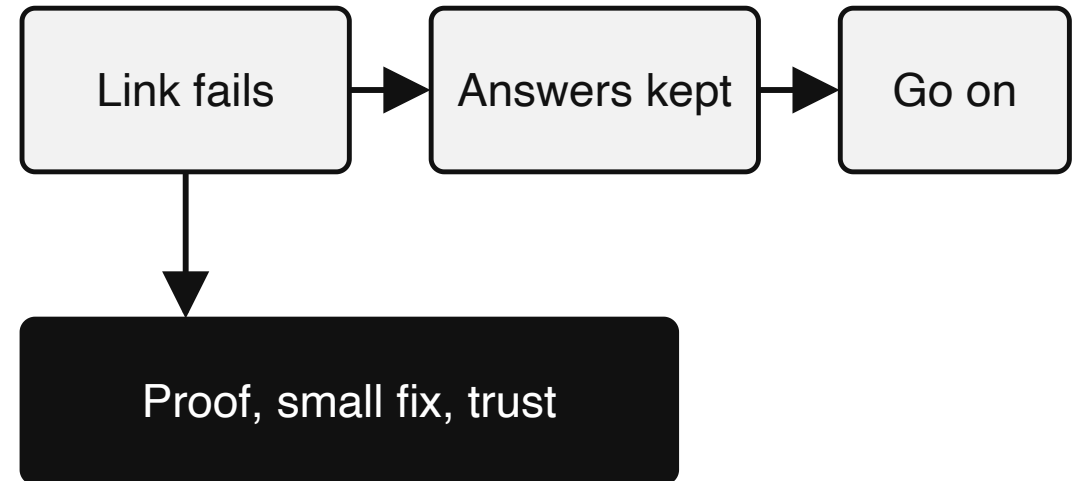

- Honest candidates are not punished
- Cheating is found, not guessed
- Hindi and Tamil access, not English only

Before and after a failure

TODAY

WITH SAAKSHI

The decision, in numbers

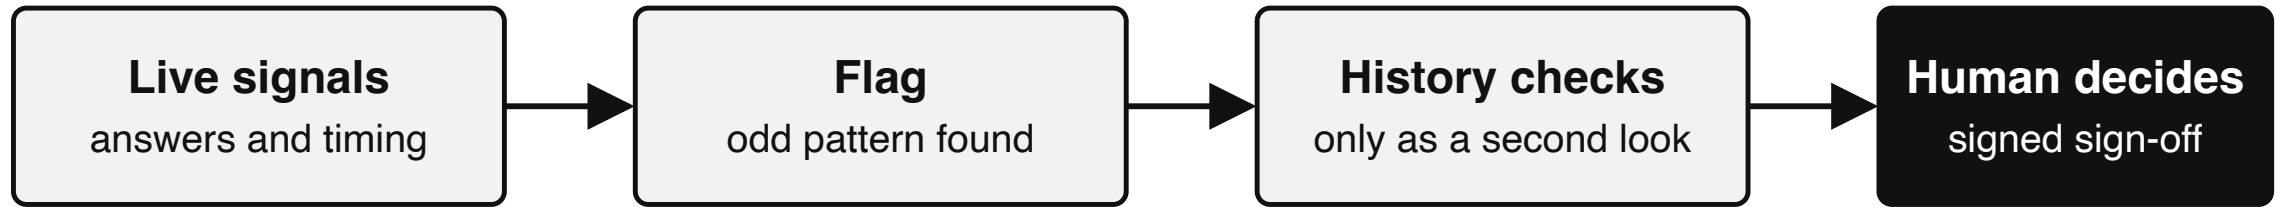

One Act 5 run on a full size 20,000 candidate test cohort. After a cheating leak at 3 centres and an outage, Saakshi worked out who needs what. The data is synthetic.

18,994 candidates spared a re-test	₹2,84,91,000 rupees avoided	225 candidates re-tested
3 centres re-conducted	322 flags raised for review	55 flags backed by history

Rupees avoided is 18,994 candidates times ₹1,500. The ₹1,500 is an example policy value, not an NTA figure. The report prints this assumption.

Fair to honest candidates

- Past history alone never flags anyone. It only backs up a flag.
- In the 2,000 candidate run, no honest candidate was flagged.
- A person signs off every decision.

Notices in three languages

After a decision, each affected candidate gets a notice they can read. The notice is approved first, then shown in Hindi, English and Tamil.

हिन्दी

Hindi notice and banner

ENGLISH

English notice and banner

தமிழ்

Tamil notice, banner and status page

The Hindi and Tamil drafts are machine translated. Native speakers must review them before real use. Tamil question text is still English until a Tamil question bank exists.

Gains at a glance

Type of impact	What changes	Evidence
Social	Honest candidates are not re-tested; cheating is shown, not guessed	No honest candidate flagged in the 2,000 run
Economic	Fewer needless re-tests	₹2,84,91,000 avoided on the 20,000 run (example value)
Educational	Exam time is not lost to faults; notices in 3 languages	0 answers lost in 20 of 20 chaos runs
Governance	Every decision has a signed, checkable proof	1,000 of 1,000 tampered records located

What we do not claim

- All numbers come from synthetic data and one Mac. They show the method works, not a real national result.
- A signature proves a record was not changed after the seat made it. It does not prove what the candidate meant.
- Tested on macOS and Windows.
